MESSAGE FROM THE PRESIDENT

Dear Colleague,

On behalf of the Canadian Association of Bariatric Physicians and Surgeons (CABPS), IFSO North American Chapter (IFSO NAC), and the 2nd International Consensus Conference on Duodenal Switch (ICCDs 2017) I am pleased to extend this invitation to attend Canadian Obesity Weekend to our colleagues in the field of obesity and related disorders. This event, a first in Canada is scheduled for May 18-20, 2017 at the Sheraton on the Falls in Niagara Falls, Ontario, Canada.

The event will kick off with our Pre-Conference Workshop on Duodenal Switch hosted by ICCDS 2017. The scientific content of the Workshop will provide the opportunity to hear from **15 renowned international leaders** as they share their expertise on DS and its variants. The program will feature **8 live surgeries** by high caliber operators from around the world.

The CABPS and IFSO NAC Conference will begin on day two with a heavy focus on "Metabolic Benefits of Bariatric Surgery and Medicine." We will focus on weight re-gain, diabetes and microbiota, as well as the larger picture (including needs assessment in bariatric care, improving access to care in bariatric surgery and, as always, best practices). Bariatric medicine and surgery take a holistic approach, considering the role of patient psychology and the patient's support system as well as surgery and direct medical interventions.

We hope delegates will participate in our social events Thursday and Friday evenings; they are an opportunity to build and enhance your contacts and friendships in a more relaxed setting.

Niagara Falls is a beautiful city, rich in history, and offers many attractions and fun-filled activities. We invite you to bring your family to enjoy a bit of our Canadian heritage and culture.

Sincerely,

CANADIAN ASSOCIATION OF BARIATRIC PHYSICIANS AND SURGEONS

Laurent Biertho
